

Ready when you are.

Tested and documented for weights up to 500 kg by KTH Solid Mechanics
The Royal Institute of Technology in Sweden

M Universal Wallmount

With this exceptional wallmount the screen only sticks out from the wall about 30 mm. Multibrackets Universal Wallmounts are equipped with a level metering bubble. It is also very easy to assemble. The 600 mm span

between the assembly bolts makes it possible to fasten the wallmount in the joints. Thanks to the Multibrackets Anti-theft system, you can also lock the screen to the wallmount (optional).
